ADVANCED SKIN TREATMENT

MICROHYDRABRATION

Microhydrabrasion uses the philosophy of improving the skins appearance by restoring youthful, healthy radiance by removing dead skin and debris within the skin. The multiple abrasive edges of the Whirlpool tip exfoliates the skin several times with each pass to achieve smoother skin by resurfacing without irritation. A suction effect is created to easily dislodge and remove blackheads and trapped sebum, allowing painless extractions. Hydrating serum infusion penetrates skin and potent antioxidants into the skin, improving the appearance of hyper pigmentation, oiliness, fine lines and wrinkles, leaving the skin with a healthy glow.

MICRONEEDLING AESTHETICS SKIN TREATMENT

(COLLAGEN INDUCTION THERAPY)

Micro needling (for Dermal stimulation) This technique uses fine needles to pierce the skin in a controlled and precise pattern. These microscopic injuries stimulate the body's natural healing process resulting in increased collagen production, improving appearance of fine lines, hyperpigmentation and acne scarring.

Brow Lamination	R450.00

Also called brow sculpt or brow lift, is essentially a perm for your eyebrows. It was designed to give the illusion of fuller, more defined eyebrows. Last approximately 4-6 weeks.

Lash Lift and Tint **R450.00**

Forget Lash Perms, we're the Lash Lift generation. Unlike the perming rods used last century, this modern technique uses silicone pads to lift the lashes from the root only. This creates a subtle, natural-looking lift, giving the illusion of length and making the eyes appear more open. This is a great alternative for clients who want a long-lasting alternative but don't have the time needed to maintain eyelash extensions. A lash lift lasts 6-8 weeks on natural lashes.
